09 2024 - 12 2025

Java Developer

kanpur, India

- As a Java Developer Trainee, I gained hands-on experience in Core Java and Servlets, focusing on building scalable and efficient web applications. I worked on designing backend logic, handling HTTP requests, and integrating databases using JDBC. My training emphasized object-oriented programming (OOP), multithreading, exception handling, and web development with Servlets. Along with this I also worked on Front end technologies like HTML, CSS and JavaScript to make the interactive and responsive projects
